

ETONIEN's Operations Transformation Practice provides comprehensive support to private equity firms and their portfolio companies. Whether at the fund level or within individual portfolio companies, we deliver tailored solutions that drive measurable results and unlock lasting value.

Private Equity Funds

We partner with private equity firms to ensure their funds deliver on investment theses and value creation strategies. Our services are designed to align operational performance with strategic goals, maximizing ROI and exceeding investor expectations.

PE Portfolio Companies

We provide hands-on execution for portfolio companies, addressing critical challenges and ensuring alignment with broader investment goals. Our services enhance efficiency, scalability, and profitability across all areas of operations.

Delivering interim and project-based operations and supply chain operators across the full M&A lifecycle, from diligence to exit.
