

A Consulting Platform Built for Private Equity

ETONIEN has redefined the consultancy and staffing model to meet the unique needs of private equity firms and their portfolio companies. Starting in 2008 with our flagship expertise, interim CFO support, our footprint has expanded, now providing end-to-end solutions for transactions often overlooked by larger, generalist consultancies and too specialized for traditional industry-focused boutiques. ETONIEN now delivers the depth, agility, and tailored expertise PE clients need in one cross-functional execution platform spanning Finance, HR, and Operations.

What We Do

Our mission is to provide fast access to exceptional project and interim resources in times of critical need.

We bring deep expertise across three practice areas: Finance, HR, and Operations. We run towards problems and have a rich history in solving complex issues with sponsor-backed businesses at key inflection points across the health spectrum, inception, high-growth, stressed and distressed.

We are agile, capable of deploying resources quickly, accessing a curated bench of highly skilled talent enabling rapid deployment of experts who meet exacting project needs.

-

After 17 years and hundreds of client engagements across diverse industry sectors, the ETONIEN brand has become a trusted partner to PE firms in need of high-level, interim leadership.
