

Corporate Services

CFO Controller

Our CFO and Controller level consultants have the ability to seamlessly assimilate into complex situations. And coupled with diverse industry experiences, our interim CFOs and Controllers provide a strategic and operational advantage to our clients.

An ETONIEN interim CFO: Our interim CFO consultants have the experience that drives our clients to continuously choose us when they require assistance with affecting change, managing transitions and improving operational efficiency. We employ only well educated consultants who possess an MBA and/or CPA with a minimum of 20 years of progressive corporate experience through the CFO level within a wide variety of public and private companies.

An ETONIEN interim Controller: Our interim Controller consultant service is the fastest growing segment of our practice. At ETONIEN, we not only understand the value of accurate and timely financial statements and controls, but also know that our clients and CFO consultants often benefit from the support of a Controller level resource. Our Controller consultants also possess a MBA and/or CPA coupled with a minimum of 15 years corporate operating experience in Fortune 1000 businesses, complex private equity portfolio companies, and public and private middle market companies.
